Art Unit: 2663

1. The following is an examiner's statement of reasons for allowance: All the claims are allowable over the prior art of record because prior art fail to teach or fairly suggest i) an ISDN telecommunications device and a method of placing a call from an ISDN telecommunications device as recited in the present claims including the features of providing the ISDN telecommunications device with overlap mode ISDN dialing and enbloc mode ISDN dialing mechanism, and for an off-hook condition, causing the ISDN telecommunications device to place a call using the overlap mode ISDN dialing, and for an on-hook condition, causing the ISDN telecommunication device to place a call using the enbloc mode ISDN dialing mechanism, and ii) a method of determining whether a communication circuit is qualified for ISDN signaling comprising the steps of: for an on-hook condition, attempting to place a call therefrom using enbloc mode ISDN dialing; and providing an indication of whether the communication circuit is qualified for ISDN signaling in accordance with whether a call set-up acknowledgment message is received by the ISDN telecommunication device.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

2. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Min Jung whose telephone number is 571-272-3127. The examiner can normally be reached on Monday, Thursday, Friday 7:30 - 6:00.
